

ETH4D Research to Action Grants: Project Description and Objectives

Please use this template for the project description and objectives.

1. What will the grant be used for exactly?

Research dissemination activities:

- Organisation of/active participation in a stakeholder workshop, non-academic conference, or policy dialogue
- Travel back to the field to present and discuss research results (i.e. doctoral project) with local stakeholders and participants
- Production of a video showcasing your research results
- Exhibition or other creative formats showcasing your research results

Prototype development:

- Material for prototype development
- Other; please specify:

2. Please describe the projects and objectives to be achieved (6'000 characters excl. space characters, timeframe and work plan, using Arial/ size 11/ line pitch 1.15)

- Describe how your results are being used, implemented, or disseminated demonstrating a global development-related impact
- Describe your institutional link to the ETH (e.g., previous research, courses taken at ETH, an affiliation with innovative ETH initiatives)
- Describe what activities you are planning and how these will help filling the gap between research and practice
- If you plan dissemination activities:
 - What are the 3-5 key messages you want participants/viewers to take away?
 - Who is your target audience and why did you decide to focus on them?
- If plan a prototype explain what its purpose is:
 - Is it about learning (e.g., will the product work? Is it realistic? Is it useful? Does it meet a current need?)

- And/or is it about communication? If so, who is your target audience (e.g., potential funding bodies, NGOs, potential users)?
- If you have a project partner, describe how your partner's expertise/ thematic focus aligns with the project's content
- Please add a timeframe and work plan
