

Our Team in Zurich is ready to welcome you as **Innovative Problem Solver** **— Software Engineer**

Are you a **Computer Scientist, Physicist, Mathematician** or an **Engineer** from another field (with MSc or PhD) seeking for a never-boring job that not only challenges your learning ability and analytical thinking, but also feeds your curiosity, fosters creativity and gives you the freedom to contribute your own ideas?

Stay ahead of the curve — Since the beginning, we follow an agile methodology and embrace extreme programming and TDD principles, ensuring that Lifeware stays at the forefront of software engineering practices.

Frictionless and Seamless development — Thanks to our unique environment we enjoy and extraordinarily efficient and smooth development experience.

Shape the future with us — You can play a pivotal role in crafting smart, high-impact software solutions for our clients.

Own your craft, end-to-end — You'll have the autonomy to make impactful decisions across the entire software lifecycle. Collaborate with clients, design scalable architectures, and master both backend and frontend development.

About Lifeware

Lifeware is a pioneer in providing tailor-made, fully integrated, web-based solutions for the management of life insurance companies. Founded in 1998 in Switzerland by a group of leading mathematicians, physicists, and computer scientists, Lifeware is dedicated to pushing the boundaries of life insurance and fintech through innovation and cutting-edge technology. We take pride in our commitment to excellence, creativity, and fostering a dynamic work environment where every team member has the freedom to contribute their ideas.

We would love to meet you, if you

- hold a Master's degree or a PhD in a STEM field such as Mathematics, Physics, Computer science or Engineering;
- are passionate about programming (experience is not mandatory) and a willingness to learn;
- tackle both simple tasks and highly complex projects with enthusiasm and diligence;
- embrace autonomy and exhibit a high degree of accountability for your work;
- take pride in creating smart and finely crafted solutions that meet the needs of our customers;
- are a true team player who enjoys collaborating with colleagues and engaging with customers;
- are fluent in English to communicate effectively with our global customer base.

What you can expect at Lifeware

- A welcoming, international and team committed to supporting and helping each other succeed;
- Plenty of opportunities to take on challenges that align with your interests and skills;
- An informal and barrier-free working environment that fosters creativity and collaboration;
- Work flexibility, which goes together with transparent performance expectations and responsibility.

Have we sparked your *curiosity*?

You can submit your application directly via our website www.lifeware.ch.

Inès, our HR manager, is looking forward to meeting you!
