

# ETH Library: Searching, publishing and archiving

[library.ethz.ch/en/](https://library.ethz.ch/en/)

**We are here for you:** for students, researchers and all interested persons. As the central university library of ETH Zurich, we ensure that you are provided with scientific and technical information and advocate the generation, further development and transfer of knowledge in society as a customer-centric trailblazer.

[library.ethz.ch/en/](https://library.ethz.ch/en/)

# Searching

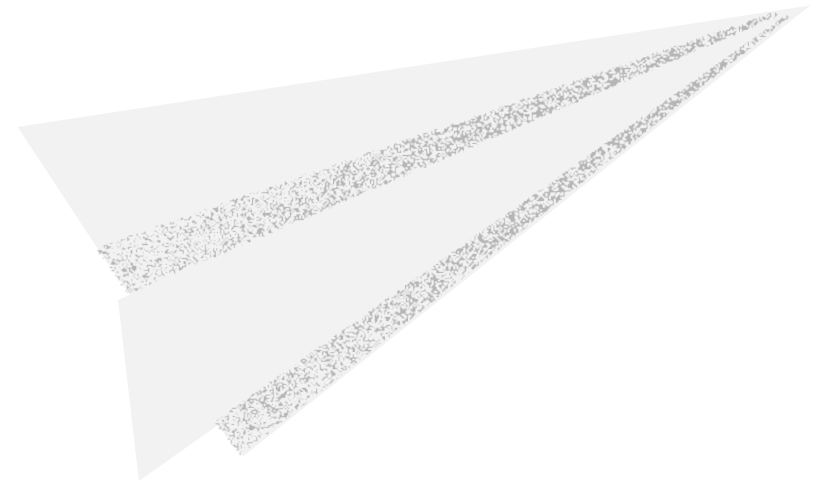

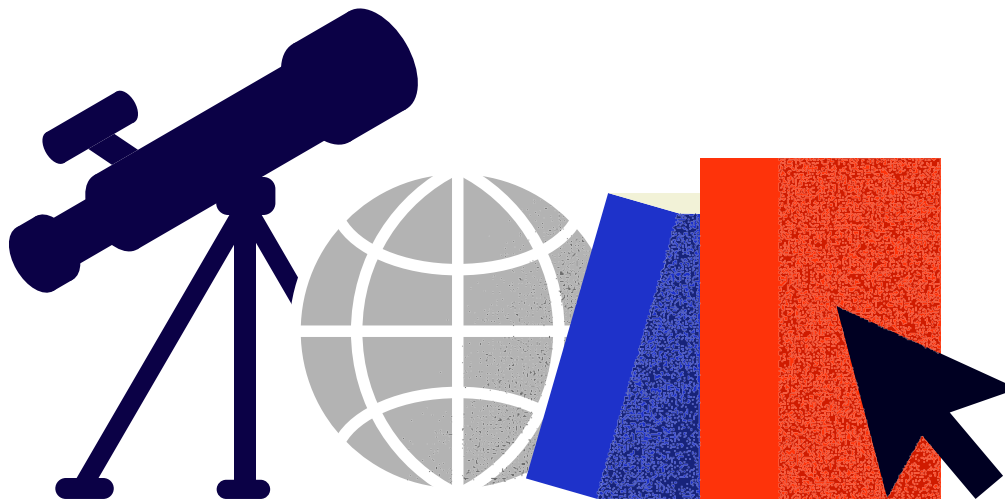

Whether you require printed or digital formats or physical objects, we provide you with whatever you need for your research, teaching or degree. At the Swiss Federal Institute of Technology (ETH Zurich), we offer freely accessible specialist literature, collections, data and specimens in a clearly structured manner, and also show you the available contents of the physical collections. We also have quiet reading, study and workspaces.

Search on ETH Library @ swisscovery:  
[eth.swisscovery.slsp.ch](https://eth.swisscovery.slsp.ch)

Our platforms at a glance:  
[library.ethz.ch/platforms](https://library.ethz.ch/platforms)

We support Open Data

- [e-manuscripta.ch](https://e-manuscripta.ch)
- [e-periodica.ch](https://e-periodica.ch)
- [e-pics.ethz.ch](https://e-pics.ethz.ch)
- [e-rara.ch](https://e-rara.ch)

## Publishing

We run the Research Collection as a repository for your publications and their dissemination, management and documentation, and offer specialised advice on data management and publishing issues, for example data management planning, open access and long-term archiving. We provide additional support for publishing in open-access journals by covering the expenses.

# Archiving

Our archives preserve knowledge and make it available to science and all interested parties:

- [library.ethz.ch/image-archive](https://library.ethz.ch/image-archive)
- [library.ethz.ch/university-archives](https://library.ethz.ch/university-archives)
- [mfa.ethz.ch/en/](https://mfa.ethz.ch/en/)
- [tma.ethz.ch/en/](https://tma.ethz.ch/en/)

To ensure that you can access the steadily growing volume of digital archival holdings on a sustained basis and over an extended period of time, our digital long-term preservation guarantees their safe storage and usability. In addition to archival materials in the narrower sense, digital long-term preservation includes a wide range of other digital objects, such as doctoral theses, master files from digitisation projects, software code and research data.

- [library.ethz.ch/archiving](https://library.ethz.ch/archiving)

Our collections maintain, index and provide access to their holdings. These include objects, works and documents focused on natural sciences, technology and culture.

## Knowledge and learning

Our exhibitions, online platforms, guided tours and co-creation campaigns, where we actively involve our customers, take the know-how of ETH Zurich to the public. Our courses, workshops and webinars teach you skills in conducting searches, scientific writing, reference management, open access and data management. We also offer individual advice on all these topics.

The addresses and opening  
times of the collections,  
archives and exhibitions are  
displayed on our website.

A photograph of a man and a woman looking at an exhibition. The man, on the left, is wearing a yellow and black checkered button-down shirt and blue jeans. The woman, in the center, has long blonde hair and is wearing a blue and white horizontally striped long-sleeved shirt and a dark skirt with large buttons. In the foreground on the right, the out-of-focus profile of another person's face is visible. The background is a modern interior with concrete pillars and a white ceiling.
