ETH zürich

Registration desk specifications

Dimensions (Width × Depth × Height)

Main building HG, Zentrum

Counter	1.41 × 0.70 × 1.18 m
Extra shelf	0.39 × 0.47 m
Back wall without screen	1.30 × 0.50 × 1.93 m
Back wall with screen	1.30 × 0.50 × 2.19 m
Screen	0.91 × 0.53 m (W × L)

Building HPH, Hönggerberg

Counter	1.41 × 0.65 × 1.10 m
Back wall without screen	1.30 × 0.50 × 1.93 m
Back wall with screen	1.30 × 0.50 × 2.19 m
Screen	0.91 × 0.53 m (W × L)

Screen

40" (Diagonale von 1.01 m).
Full HD Screens 700cd – NEC Multisync P404 Display PRO
(integrated standard media player).

Design

Counter
› Lockable sliding doors.
› Half of the counter equipped with one shelf.
› One extendable holder (e.g. for lanyards) on the inside.
› White acrylic glass, backlit with LED.
› One cable outlet (HPH Hönggerberg); three outlets
  (HG Zentrum).
› One power distributor with five ports.
› Heavy-duty locking castors.
› Desks at HG Zentrum have an additional shelf for extra
  storage, which can be fixed on the outside right.

Back wall
› Lockable doors with ventilation slits.
› Screen stored inside (connected up by the caretaker).
› Heavy-duty locking castors.

Instructions and operation of screens

Each desk/back wall is equipped with a screen, which can be individually programmed. A MINIX media player is installed in the wall for this purpose.

To use the screen, either connect up a laptop to the player or copy data to a USB stick and insert it into the media player. You need one laptop or one USB stick per screen. To connect a laptop, you need an HDMI cable and, if necessary, appropriate adapters (especially for Apple devices).

Format	16:9
Resolution	Full HD (1920 × 1080 pixel)
Files	JPEG, PNG, MP4
	Other formats such as PowerPoint etc. are not supported.

USB storage stick
All files to be played must be copied to a USB stick in the top directory (root) and stored in alphabetical order (no numbers).

For example:
› a_Agenda.jpg
› b_Trailer.mp4
› c_wettbewerb.png

JPEG and PNG files are displayed for eight seconds each. This duration is fixed and cannot be changed manually. Videos in MP4 will play automatically. Playback of the files is repeated automatically, in a continuous loop.

Note
We recommend borrowing the desks early to test the import of media files via USB stick or laptop.
