**CLIMATE POSITIVE CONSTRUCTION FRIDAYS ARE A SERIES OF EVENTS TO ACCELERATE THE NECESSARY TURNAROUND IN THE CONSTRUCTION SECTOR. URGENCY IS DEMANDING ACTION TODAY.**

For this third edition, we focus on "Scaling up Bio-Based Construction". We have the pleasure to host a special guest: Dirk Scharmer, Co-Founder of FASBA, Association for Strawbale Construction in Germany, will give insights to the history, important steps and news on lobbying and laying out basis for straw constructions. Three complementary guests, will be participating to enrich the discussion and help examine different attitudes and approaches towards bio-based construction: Andrea Akchoti, communication and legal at Structura C. Guillaume Habert, ETHZ, director of chair of Sustainable Construction. Bjørn Kierulf, founder of Ecococon.

Sign up here,  
to join us in person or attend online:

**KULTURPARK**  
Pfingstweidstrasse 16,  
8005 Zürich, Switzerland

This event is co-organized by ETH Zurich / Chair of Sustainable Construction and by The Real Deal - Post-Fossil Construction for Game Changers in the framework of the CAS ETH in Regenerative Materials - Essentials.
