

Experimenting with city streets

The role of real-life experiments
in understanding and changing
urban mobility

Luca Bertolini, University of Amsterdam

Luca Bertolini is Professor of Urban and Regional Planning at the University of Amsterdam. His research and teaching focus on the integration of transport and land use planning, on methods for supporting the option-generation phase of the planning process, on concepts for coping with uncertainty in planning, and on ways of enhancing theory-practice interaction. Main publication topics include planning for sustainable accessibility in urban regions, conceptualizing urbanism in the network society, and the application of evolutionary theories to planning.
