Molecular Health Sciences	4		0	4
Molecular Systems Biology	2		0	2
Molecular Plant Biology	2		0	2
Guest speakers	3		3	0
Total	22	-	6	16

MODALITIES

- All lectures: 20 min. (followed by discussion 5 min.)
- The speakers for the free lecture slots shall be nominated by the individual institutes/scientific areas from among all the active participating scientists.
- Please make sure the speakers will prepare a presentation suitable for an audience representing the wide range of interests and backgrounds in D-BIOL.
- The symposium language is English.
- All newly appointed faculties arrived since June 2022 that have not yet spoken at the D-BIOL Symposium are automatically nominated for a talk.

POSTERS

Every group leader will be informed about the number of poster slots available for his/her group. Within the allotted poster quota, the group leaders are free to choose persons of their groups or subgroups to present a poster.

Flash talks: Posters may be presented in form of flash talks (depending on slot availability)
