Cutting Edge Topics: Immunology Infection Biology
Program Spring Semester 2017

February 21, 2017
Dr. Jessica Quintin
Institut Pasteur, Paris (FR)
*Innate Immune Memory*

February 28, 2017
Prof. Dr. Martin Bachmann
University of Bern (CH)
*Vaccination Against Chronic Diseases: From Alzheimer to Cancer Vaccines*

March 7, 2017
Prof. Dr. Vasileios Bekiaris
DTU Veterinary Institute, Section for Immunology & Vaccinology (DK)
*Molecular Regulation of Type 3 T cells*

March 14, 2017
Prof. Dr. Doron Merkler
University of Geneva (CH)
*Protective and pathologic immune surveillance in the CNS*

March 21, 2017
Prof. Dr. Monique Gannagé
University of Geneva (CH)
*Autophagy controls the Th17 Response and shapes the severity of Inflammatory Arthritis*

April 4, 2017
Prof. Dr. Oleg Butovsky
Center for Neurologic Diseases, Harvard Institutes of Medicine, Boston (USA)
*Mechanisms of microglia regulation in neurodegeneration*

April 11, 2017
Prof. Dr. Philippe Bousso
Institute Pasteur, Paris (FR)
*Decoding immune responses to cancer and infection using intravital imaging*

Guests are most welcome!
Cutting Edge Topics: Immunology Infection Biology
Program Spring Semester 2017

May 9, 2017
Prof. Dr. Christoph Schlapbach  
University of Bern, Inselspital, Dept. of Dermatology (CH)  
Th9 and Th2 cells: Same same but different

May 16, 2017
Prof. Dr. Stéphanie Hugues  
University of Geneva, Department of Pathology and Immunology (CH)  
Lymph node stromal cells and T cell tolerance

May 23, 2017
Prof. Dr. Philipp Lang  
University of Düsseldorf (GER)  
Immune functions during viral infections

May 30, 2017
Prof. Dr. Mohamed Oukka  
University of Washington (USA)  
Regulators of Regulatory T cells in autoimmunity

Guests are most welcome!
