

## Cutting Edge Topics: Immunology Infection Biology

Takes place usually Tuesdays at 16:30  
(ETH VVZ 551-1117-00L, UZH BIO636)

Program autumn semester 2024

10.09.2024

Y34 J-01

Prof. Li-Fan Lu

Host: Prof. Burkhard Becher

University of California, San Diego (USA)

***Functional specialization of regulatory T cell-mediated immune regulation in health and disease***

17.09.2024

Y13-M-12

Prof. Mikael Pittet

Host: Prof. Cornelia Halin

University of Geneva (CH)

***Myeloid cells in cancer***

01.10.2024

Y13-M-12

Prof. Carola Vinuesa

Host: Prof. Annette Oxenius

The Francis Crick Institute, London (UK)

***Self-reactive B cells: what we knew, what we now know, and what we still don't know***

08.10.2024

Y16-G-05

Dr. Nikolaus Dietlein

Host: Prof. Christian Münz

German Cancer Research Institute, Heidelberg (GER)

***Epigenetic regulation of hematopoiesis and immunity through H2B monoubiquitination***

16.10.2024

at 9:00 - 15:15

HIT E51

***Mini-Symposium of Viral-Host Interactions***

23.10.2024

at 11:15

HCI J7

Dr. Nikolche Gjorevski

Host: Prof. Wolf-Dietrich Hardt

Institute of Human Biology (IHB), Roche Innovation Center Basel (CH)

***Engineered models of the human intestine to reproduce and study inflammation***

29.10.2024

Y16-G-05

Dr. Isaak Quast

Host: Prof. Natalia Pikor

Monash University, Melbourne (AUS)

***Maintaining diversity while maximizing affinity - The balancing act of B cell selection***

## Cutting Edge Topics: Immunology Infection Biology

*Takes place usually Tuesdays at 16:30  
(ETH VVZ 551-1117-00L, UZH BIO636)*

Program autumn semester 2024

**12.11.2024**

**Y16-G-05**

**Prof. Daniela Finke**  
University of Basel (CH)

Host: Prof. Christoph Schneider

***Impact of RORg+ antigen-presenting cells for T cell memory***

**19.11.2024**

**Y16-G-05**

**Prof. Sam P. Nobs**  
University of Zurich (CH)

Host: Prof. Christoph Schneider

***Immunity and metabolism go viral***

**26.11.2024**

**Y16-G-05**

**Prof. Nina Cabezas Wallscheid**  
MPI Freiburg (GER)/ ETH Zürich (CH)

Host: Prof. Nicole Joller

***Regulation of hematopoietic stem cell dormancy in health, aging, and disease***

**10.12.2024**

**Y16-G-05**

**Dr. Christopher Klebanoff**  
Memorial Sloan Kettering Cancer Center, New York (USA)

Host: Dr. Obinna Chijioke

***Engineering cancer specificity and resiliency into next-gen cellular immunotherapies***

**17.12.2024**

**Y16-G-05**

**Dr. Michelle Linterman**  
Babraham Institute, Cambridge (UK)

Host: Prof. Nicole Joller

***The resilience of humoral immunity***
