

Corona safety protocol for Medical Devices (511-0036-00L)

May 3, 10 and 28, 2021, HIT E51

The general ETH safety concept applies: [Teaching in Spring Semester 2021](#)

Protection measures during the lectures:

- It is compulsory to wear a mask on the entire ETH campus, inside and outside (details see above safety concept).
- students and lecturers keep a distance of 1.5 m at all times including during breaks and when entering or leaving the lecture room.
- tables and chairs are positioned in a suitable way to keep at least the above distance, preferably more.
- students and lecturers use disinfections when entering the room and before and after touching any illustrative material.
- Students keep their assigned places during classroom teaching.
- Students attending online sequences of the course may stay in the lecture room or follow the online lectures from another place, distancing rules apply during all online or classroom sequences
- A list of participants is kept for each course day.
