

Instructions for the double door system

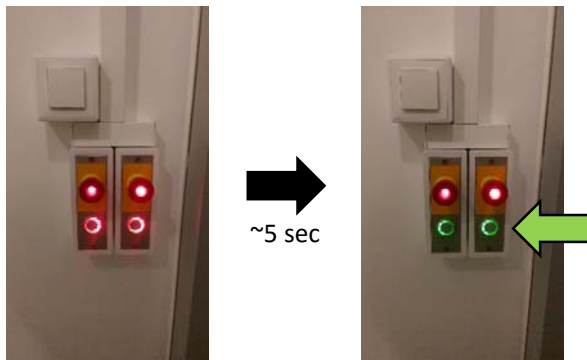

1. Unlock the door with your key if necessary

2. Press the green button

3. Enter through the first door and close it

4. Wait until the red lights changes to green

5. Press one of the green buttons (**left button**: Door to Toxlab; **right button**: Door to hallway)

6. Enter through the selected door and close it

In the case of an emergency or you get stuck use the red emergency switches above the buttons.
