

# Adaptive radiotherapy

symposium on state of the art and future challenges in photon therapy

**Wednesday, 13th September 2023**

**Auditorium, Monte Verità, Ascona**

**Join us** for an enlightening symposium that delves into the forefront of Adaptive Radiotherapy, exploring its current advancements and the challenges in photon therapy. This event brings together luminaries and experts in the field to share their experiences, research findings, and insights that are shaping the future of radiation therapy.

## **Presentations:**

Prof. Bas Raymaakers; UMC Utrecht, Netherlands

### **Adaptive Radiotherapy (ART) - experience from the photon world**

Prof. Thomas Zilli; EOC Istituto Oncologico della Svizzera Italiana, Bellinzona

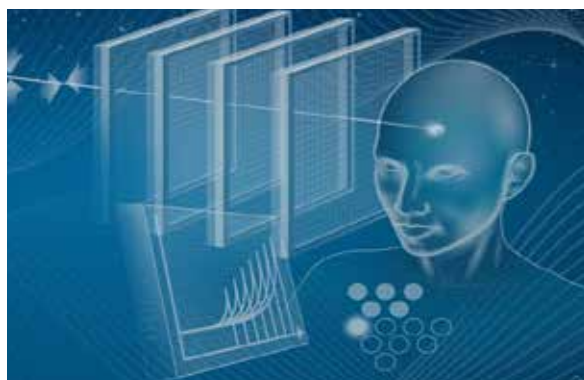

### **Adaptive radiotherapy for prostate cancer: where are we in 2023**

Dr. Nathan Corradini; Gruppo Ospedaliero Moncucco

### **Real-time tumor tracking and adaptive radiotherapy at Gruppo Ospedaliero Moncucco**

Dr. Klaudia Krzekotowska; EOC Istituto Oncologico della Svizzera Italiana, Bellinzona

### **Off-line adaptive radiotherapy at EOC: strategies and opportunities**

**4.30 – 7.00 pm: Seminar in English followed by an apéro**

## **Free entrance**

Reservation preferably until 8.9.2023 under [info@csf.ethz.ch](mailto:info@csf.ethz.ch) / tel. 091 785 40 54

Public event presented in the scope of the international summer school “3d RAPTOR SCHOOL - LOOP ENGAGEMENT” (10.09. – 15.09.2023), organized by Dr. Francesca Albertini and Prof. Dr. Tony Lomax, Paul Scherrer Institut and ETH Zürich with the Congressi Stefano Franscini/ETH Zürich.
