

Pauli Lectures 2021

Prof. Cédric Villani

Université Claude Bernard Lyon 1, France

Tuesday, 14 December 2021, 17:30 h

**Boltzmann's theory, or relaxation
by confined entropy increase**

Auditorium Maximum, HG F 30, ETH Zentrum, Rämistrasse 101, Zurich

Wednesday, 15 December 2021, 17:15 h

**Landau's damping, or relaxation by smoothness
and confined mixing**

Lecture Hall, HG E 7, ETH Zentrum, Rämistrasse 101, Zurich

Thursday, 16 December 2021, 09:00 h

**Quantitative estimates for
slightly dissipative fluids**

Lecture room, HG D 3.2, ETH Zentrum

Rämistrasse 101, Zurich

Apéro

after the
Tuesday Lecture
(14 December)

Access only with Covid certificate and ID.
