

## STUDENT WORKSHEET – WATER CYCLE

Match the letters in the diagram above to the correct term in the list below:

1. Condensation – A
2. Groundwater –
3. Infiltration –
4. Evaporation –
5. Transpiration –
6. Rivers and Lakes –
7. Precipitation –
8. Snow and Glaciers –
9. Clouds –
10. Runoff –
11. Ocean –

Which stage of the water cycle require solar radiation?

---

---

Which stages of the water cycle are driven by the force of gravity?

---

---

Describe at least two different paths that water can take in the water cycle using the figure above. Start in the ocean.

---

---
