

World Food System Center Mercator Program

To support activities in Research, Education, and Outreach & Dialogue, the WFSC established the Mercator Program in partnership with the Mercator Foundation Switzerland. The program aims to explore the role and potential of organic production systems (certified or non-certified) to contribute to global food security.

RESEARCH

Mercator Research Program
Organic Production Systems for Food Security

→ Posters # 3-8, 11, 12 and 15
