

Engineering Geology Seminar - Programme Spring 2025

ETH Zurich, NO C6; Version 11.03.2025

Date	16.15 - 17.00	Moderator
18.03.2025	<p style="text-align: center;">Isabella Schalko (Swiss Federal Research Institute WSL) "From Hazard to Habitat: Understanding Wood's Impact in Fluvial Systems"</p>	J. Aaron
25.03.2025	<p style="text-align: center;">Florian Amann (RWTH Aachen University) "Some Things You Should Know About Clay Rocks"</p>	J. Aaron
01.04.2025	<p style="text-align: center;">Daniel Draebing (Utrecht University) "Cracking and Crumbling – How frost cracking breaks down Alpine rocks"</p>	J. Hirschberg
08.04.2025	<p style="text-align: center;">Małgorzata Chmiel (Côte d'Azur Observatory) "Seismological insights into the dynamics of an active rockslide near Spitze Stei, Switzerland"</p>	J. Hirschberg
15.04.2025	<p style="text-align: center;">Christoph Wanner (University of Bern) "Permeability enhancement by CO2 injection into the Bern–Forsthaus HT-ATES sandstone reservoir"</p>	V. Gischig
29.04.2025	<p style="text-align: center;">Herfried Madritsch (Swisstopo) "Title tba"</p>	V. Gischig
06.05.2025	<p style="text-align: center;">Cristian Castro (Itasca Consultants GmbH) "Integrating Itasca Software with Python: Automating Workflows for Numerical Modeling"</p>	R. Vidanage de Silva
13.05.2025	<p style="text-align: center;">Liran Goren (Ben Gurion University of the Negev) "Drainage explains soil liquefaction beyond the earthquake nearfield and repeated liquefaction at the same site"</p>	L. de Palézieux
