

Engineering Geology Seminar Course
ETH Zentrum Building NO, Room C6
Tuesdays, 16.15-17.15
March 4 – May 6, 2015

Date:	Title / Lecturer
March 03:	<i>Evolution of submarine landslides: Unifying shear band propagation approach</i> Alexander Puzrin, Institute of Geotechnical Engineering, ETH, Switzerland
March 10:	<i>Experimental characterization of flow distribution and transport processes in fractured media</i> Tanguy Le Borgne, Geosciences, Universite de Rennes, France
March 24:	<i>Terrestrial energy coupling from the bedrock into the atmosphere</i> Stefan Kollet, Institute for Bio- & Geosciences, Bonn University, Germany
March 31:	<i>Monitoring THM effects in the Full-Scale Emplacement (FE) experiment at the Mont Terri URL</i> Tobias Vogt, Hydrogeology / Field Investigations, Nagra, Switzerland
April 21:	<i>Canada's plan for the long-term management of used nuclear fuel</i> Mark Jensen, Director of DGR Geoscience & Research, Nuclear Waste Management Company, Canada
April 28:	<i>Controls, long-term evolution and impact of slow rock slope deformations in the Alps</i> Federico Agliardi, Dept. of Earth & Environmental Sciences, GeoMib, Italy
May 05:	<i>The nature and properties of fracture damage around faults</i> Dan Faulkner, Rock Deformation Laboratory, University of Liverpool, UK
