

# Engineering Geology Seminar Guest Lectures

## ETH Zentrum Building NO, Room C6

### Tuesdays, 16:15-17:15

**March 14:** “*Microtectonics of Opalinus Clay: from laboratory deformation towards constitutive models for deformation over long time scales*”, Prof. Janos L. Urai, RWTH Aachen University,

**March 21:** “*Weighing the value of geodetic instruments in groundwater studies*”, Dr. Laurent Longuevergne, University of Rennes 1, France.

**March 28:** “*Exploitation of space borne DInSAR to investigate landslide and subsidence processes*”, Dr Gerardo Herrera, IGME, Spain.

**April 4:** “*Geophysical methods in high alpine terrain*”, Prof. Christian Hauck, University of Fribourg, Switzerland.

**April 11:** “*On the stochastic modeling of karst*”, Prof. Philippe Renard, University of Neuchâtel, Switzerland.

**April 25:** “*The rock mechanical behavior of Opalinus Clay – 20 years of experience at the Mont Terri rock laboratory*”, Dr. David Jaeggi, Swisstopo, Switzerland.

**May 2:** “*Seismicity and rock slope failure*”, Dr. Matthew Brain, Durham University, UK.

**May 9:** “*Rockfall research and rockfall protection*”, Dr. Axel Volkwein, Swiss Federal Institute for Forest, Snow and Landscape Research WSL, Switzerland.

Please note there is no seminar on April 18<sup>th</sup> and check our website for program updates: <http://www.engineeringgeology.ethz.ch/group/seminars.html>
