від _____

Dear colleagues, students and everybody who is not indifferent to the affairs of peace and the fortune of Ukraine! We are the members of Kharkiv International Medical University (khimu.edu.ua). Ukraine now is undergoing tragic times of military aggression of Russia against Ukraine. There are unstoppable bombings of peaceful cities, people and educational establishments, infrastructure is being destroyed, children are dying. Ukraine stands as a frontline for the whole Europe protecting from Russian invasion. Even under such conditions the staff and students of Kharkiv International Medical University don't lose stout-heartedness, patience and believe in victory. Our lecturers are providing professional medical online consultations, students are working in clinics, ambulances, providing volunteer aid. Kharkiv International Medical University works in the distance mode, providing the educational process for the students. Mutual support of KhIMU family makes us stronger and united. Kharkiv International Medical University has founded the Fund of Wartime Aid. The funds go to the needs of medical establishments of Kharkiv region and also for financial support of lecturers and students in tough situations. The funds of Kharkiv International Medical University have already been transferred to the needs of Kharkiv Regional Hospital. Being a part of World academic Unity, Kharkiv International Medical University highly appreciates any kind of support in expressing solidarity in struggle with the Russian aggression. Expressing your social position will make a great contribution to the forthcoming victory of Ukrainian nation. The information of all the donations obtained and spent will be regularly updated and presented to public in our social networks (<https://t.me/khimuuni> -
