8. Questions .............................................................................................................. 5
1. Foreword

This document is designed to guide students through the platform myStudies concerning how to set up the Learning Agreement as well as the selection of a tutor. Legal information on the Learning Agreement can be found in the study regulation on the department’s website.

2. Choose a Tutor

Once you have logged in in your myStudies account, please navigate to the respective matriculation and click on “Select Tutor”. Please note that students are expected to approach their intended tutor before submitting the selection in myStudies.
Choose your tutor from the list given. Your choice will be only effective once your selection has been approved by the proposed tutor. Please take note that the list below is only an example list.
3. Create Learning Agreement

Please select “Learning Agreement” from the matriculation page.
4. Edit Learning Agreement

You are now able to select courses from the course catalogue by using the “Edit” button.

5. Science in Perspective

For Master’s studies, 2 credits must be obtained at the Department of Humanities, Social and Political Sciences (D-GESS). However, please take note that the courses from D-GESS do not need to be approved by your tutor and therefore do not have neither to be included in your Learning Agreement.
6. Submission of Learning Agreement

Once your Learning Agreement is completed, please contact your proposed tutor for discussion prior to submission.

7. Deadlines

The Learning Agreement must be submitted on myStudies and approved by the tutor within 4 weeks after the first semester has started. The final version must be submitted before enrolling in the Master’s thesis.

8. Questions

If you have any queries or need support, please contact us at studiensekretariat@inf.ethz.ch.
