April 2021

Before we head into the well-deserved easter break, there is one more CSNOW event coming up: we have another of our popular Yoga sessions. The good thing about doing them online is that the room is never really full, so there's still space to join the 50 people who have signed up already!

Stay tuned for more events like the career panel and professor talks later this semester, as well as a new event for PhD students.
