

Newsletter

March 2021

We hope you've had a good start to the semester! If you'd like a break every now and then from your studies, we have many events planned for the coming months. There's also a chance to get some free tickets at the very bottom if you're interested in data science!

- Joel from CSNOW

Tichu-Turnier

As the spiritual successor to our Game Night, we are organizing our first ever **Tichu** tournament. This fun card game is getting quite big in Switzerland, so you'll definitely want to know it 😊

Luckily for you, we have just what you need: Next Thursday, we will have an event where we will introduce the game and play a small tournament. Tichu is played in teams of two, so if you like, bring a friend to compete with you! We will also form teams at the event to make sure everyone has a partner.

- Thursday, **March 4**
- 🕒 **19:00** - 21:00
- Teams of two women (individual sign-up possible)
- No previous knowledge required
- 🏆 Prizes for winners

Please note that after the event, we will ask you to play the

remaining two rounds in the week after. You will be able to meet online with your opponents any time you like (max. 30 minutes per game).

We will send out more information at the end of the week, but you can already register!

Register

AMA with Prof. Shweta Shinde

- Thursday, **March 4**
- 🕒 **13:00 - 13:30**
- Zoom
- All department members

Following the talks by Julia Vogt and Ana Klimovic, we have another one of the department's new female professors! Shweta will present her research area and give everyone the chance to ask her questions.

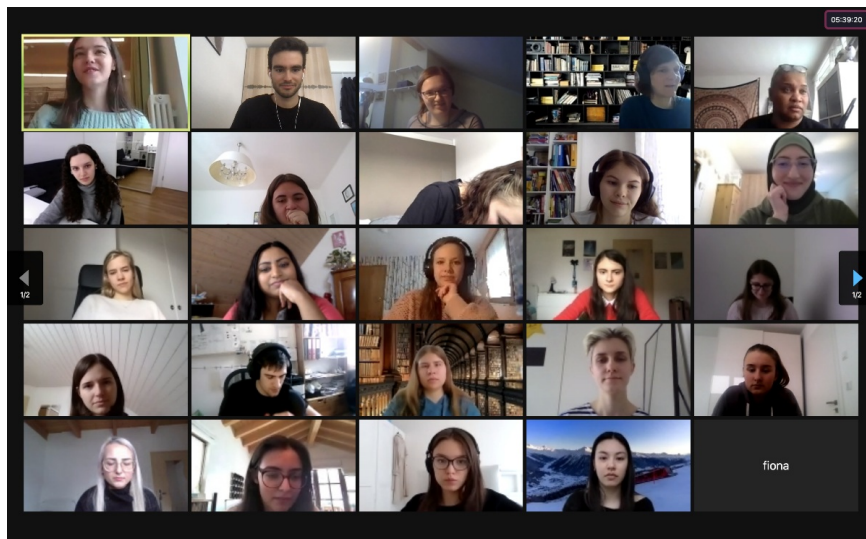

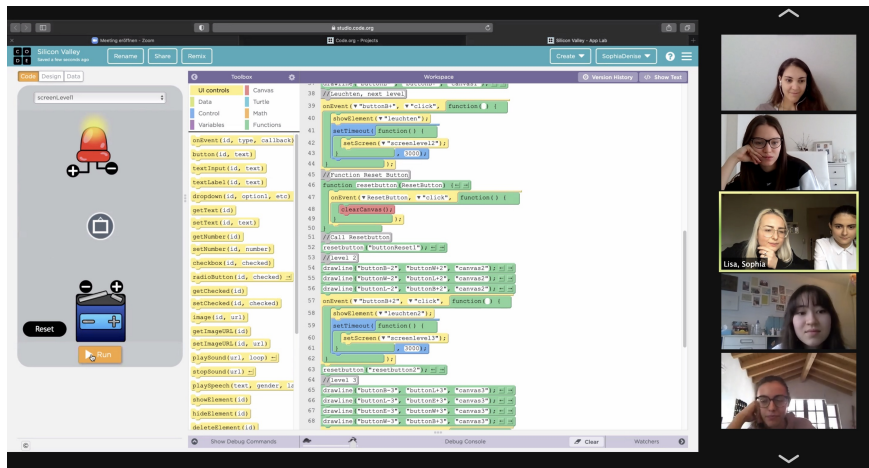

Yoga session (beginners)

- Late March
- ✉ Stay tuned for the exact date!

We will have an advanced Yoga session later during the semester, so this is a great chance to practice for that!

Schnupperstudium FS21

For this year's edition of our classic Schnupperstudium, 25 high school students from Switzerland and Germany took the chance to learn about Computer Science at ETH across three days. With the help of students from the department, the CSNOW team was able to offer a diverse curriculum including an all-new interactive programming workshop combined with a hackathon-style competition. The event was rounded out by various guest talks and student Q&A sessions about computer science, life at ETH, and the exciting career opportunities that follow.

External events

WOMEN IN DATA SCIENCE
ZÜRICH

Free Tickets to Women in Data Science Zürich

As a sponsor, D-INFK has been provided 5 free tickets to the WiDS conference. The first people to sign up will be able to attend free of charge (there's food!)

InformatikTage 2021

German only

Die ETH ist auch dieses Jahr wieder an den Informatiktagen vertreten.
