November 2022

Thank you to those who joined us for the brainstorming event last week! We gained a lot of helpful insight and are working on your suggestions. If you weren't able to attend or you have anything to add, you can always contact us via csnow@inf.ethz.ch.

We were also excited to meet fellow young women researchers during the **VMI+CSNOW lunch** on Tuesday and chat about the joys and troubles that research brings us.

Our famous ice-skating event at the Dolder next Tuesday, 29th of November, is **fully booked**. We are looking forward to seeing you soon!

- your CSNOW Team

Get to know Elif!

We continue our series of introducing our team members with Elif!

Introduce yourself! Hi! I am Elif. After finishing my Bachelor's Degree in CS, I just started my Master's Degree in CS this semester. As I am interested in ML, my major is Machine Intelligence and my minor Computer Graphics. I literally live on Zentrum Campus of ETH ☺ you can see me anytime at the info center in HG or at ASVZ. Other than that, I read a lot, enjoy dancing and going to the opera house.

What is your most embarrassing story at ETH? I have so many fail moments tbh, but the first one that comes to my mind happened to be on ETH Link. After an exercise class, I was heading to Höngg with a friend of mine from that class, with whom we were talking about our TA, how hard he was trying to explain the stuff, but unfortunately he was failing it. When we were leaving the bus on Höngg, we had to realize that he had been sitting just behind us the whole ride

What was your favourite CSNOW event that you attended? Definitely the mentoring event, the Semester Apéro back in 2019. This was the event where I got to know about CSNOW!

What would you sing at karaoke night? Rolling in the Deep by Adele (you might want to close your ears to my off-key voice, though 😊)

CSNOW events

RS Bachelor to Professorship: Prof. Olga Sorkine-Hornung and Prof. Markus Püschel

How can life for women in academia can be improved? 

From bachelor to professorship

With **Prof. Markus Püschel** and **Prof. Olga Sorkine-Hornung**
and your colleagues **Alexander Zank** and **Flavia Cavaliere**

When? 6. December
Where? LFW B1
With Cupcakes and cookies!

Join us for a panel discussion featuring **Prof. Olga Sorkine-Hornung**, **Prof. Markus Püschel**, **Flavia Cavaliere** (MSc student) and **Alexander Zank** (BSc student). The main topic of discussion will be studying and teaching as a woman at D-INFK as well as teaching women at D-INFK. We will tackle questions such as the leaky pipeline and focus on experiences, observations, and awareness among professors, TAs and students — all accompanied by an Apéro 🍷

- 06.12.2022
- 🕒 16:15
- LFW B1
- all D-INFK members welcome

Please let us know [here](#) whether you are considering joining us (not binding), so that we can organize the Apéro accordingly and make sure that we bake enough cookies for all!
