[October 2023]

We said goodbye to summer and welcomed the chilly pumpkin season with the first edition of our "Women's meet up" at bQm, one edition for Bachelor and Master students each. It was a nice opportunity to get to know fellow students as well as catch up with longtime friends in a casual environment and we will definitely be adding it to our recurrent events list, the next one happening sometime before Christmas break.

We also created a WhatsApp group, as a quicker and easier means to update

you all about upcoming events such as the bQm hangouts and more, so if you would like to join, here is the link:

[CSNOW Info group](#)

(Don't worry, you won't get spammed as we disabled non-team members from sending messages).

The fall semester is in full force, as is our upcoming event agenda! Filled with lots of exciting both social as well as educational events, take a look at what awaits you, we're looking forward to seeing you there!

As always, if you have suggestions or questions, you can contact us via csnow@inf.ethz.ch.

We indicate the main target group in the header of the corresponding news:  for the students (bachelor and master) and  for the researchers (PhD's, postdocs, and scientific staff members of D-INFK)

– your CSNOW-team

Get to know Dina!

We continue our series of introducing our team members with **Dina!**

Introduce yourself!

Hi! I'm Dina and I just started my Master in Computer Science after completing my Bachelor here. I love everything music: listening to it, playing the piano, singing. Other than that, I also enjoy reading or caring for my plants at home.

What is your favourite animal?

I guess I would have to say dogs! They are so cute, loving and just fun to be around!

What was your favourite CSNOW event that you attended?

I really liked the Siemens roundtable event! I enjoy the opportunity to meet other women studying here or that already work in the industry. This is also the reason I joined CSNOW!

What would you sing at karaoke night?

I would sing Mamma Mia from ABBA since I grew up listening to it!

Internal events

📍 🕒 CSNOW + Phi:male movie night 🍿 🎬

THE DEVIL WEARS PRADA

We will be holding a movie night in collaboration with Phi:male! So get out your cozy socks and join us for a night of Anne Hathaway & Meryl Streep as we watch "The Devil Wears Prada" 🐈‍⚔️ 👗 👠

As always, snacks and drinks will be provided :)

- 📅 Thursday, 09.11.2023
- 🕒 Movie will start at 19:00, entry from 18:40
- 📍 Alumni-Pavillon
- 👥 All members of D-INFK and VMP welcome
- 🖋️ No registration necessary

📍 🕒 Next book club meeting

Join us for this month's book-club discussion! We are currently reading "Babel" by R.F. Kuang.

Sign up to the book-club [here](#), and feel free to join us even if you haven't signed up.

- 📅 Monday, 20.11.2023
- 🕒 19:00
- 📍 TBA (somewhere in CAB)
- 🗣️ language: English

📍📄 Meet your professor! Prof. Fanny Yang

Get to know your professor! This edition, we will welcome Prof. Fanny Yang, whom most of you know from the **Introduction to Machine Learning** course or the **Data Science Lab**. Join us as we discuss topics such as her academic path, her research, work-life balance, and many more, in a casual setting followed by an open Q&A forum. We will provide drinks and snacks — so please sign up (non-binding) if you would like to come so we can make sure to provide enough 🍪🥤

- 📅 Thursday, 30.11.2023
- 🕒 16:00
- 📍 TBA
- 👥 everyone is welcome
- 🖋️ sign up [here](#)

📄 VMI-CSNOW Lunch for Women PhDs and Postdocs

VMI and CSNOW would like to help female PhD students, postdocs and other researchers at D-INFK to connect with each other and have a platform to share

their experience and knowledge. Join us for free lunch on Thursday, November 23 at 12:30 in CAB H 53 to meet other women in computer science! Please sign up latest by 21.11.2023 so we can arrange the catering.

- 📅 Thursday, 23.11.2023
- 🕒 12:30
- 📍 CAB H53
- 👥 All women PhD students and Postdocs
- ✍️ sign up [here](#) (latest by 21.11.2023)

® VMI-CSNOW Mentoring Program

The transition between student and academic life can be tricky and confusing for everyone, from learning how to be a good researcher to thinking about your career goals — and anything in between! It often helps to informally chat with older peers that have faced similar problems and asked similar questions in the past. The goal of our mentoring program is to help young female scientists to find a suitable mentor within our faculty. The concrete details of the mentee-mentor relationship (content, regularity of meetings, etc.) is completely up to each pair. But we are of course very happy to provide guidance and tips for building a beneficial mentee-mentor relationship and will offer further support if necessary.

Would you like to benefit from the mentoring program or would you like to participate as a mentor? You can apply at any time of the year — but we encourage you to sign up as soon as possible, so we can get to work finding you the most suitable mentor/mentee!

Become a mentee!

Become a mentor!
