Particle Technology Seminars (Feb.-March 2002)

Fridays 15.15-17.00; Room ML H 16, Sonneggstrasse 3, CH-8092 Zürich

Coordinator: Mrs. Ileana Eugster (eugster@ivuk.mavt.ethz.ch)

Thursday Feb. 21 Sol-Gel Encapsulation and Modelling of Release from Porous Particles

Mrs. Susanne Veith, Institut für Verfahrenstechnik, ETH Zürich

Mar. 1, **9.00 h** The Effect of Precursor and Solvent in Flame Spray Pyrolysis (FSP) and Single Droplet

Combustion

Mr. Rainer Jossen, Institut für Verfahrenstechnik, ETH Zürich

Mar. 15, Spray and Flame Spray Pyrolysis Modeling investigating Particle Evaporation during

LFW E14/16 Synthesis of Lead Oxide and Silica

Mr. Constantinos Anastassiou, Institut für Verfahrenstechnik, ETH Zürich

Wednesday Mar. 20, Pilot-scale Production of Titania and Vanadia/Titania DeNOx Catalysts

14.00h Mr. Wendelin Stark, Institut für Verfahrenstechnik, ETH Zürich

Wednesday Mar. 27, Aggregation and Fragmentation in Dilute and Concentrated Suspensions

ML E13 Dr. Georg Barthelmes, Institut für Verfahrenstechnik, ETH Zürich

The seminar schedule for the summer semester 2002 will appear soon.
