<sup>1</sup> All newly introduced courses have to be approved by the teaching committee (Unterrichtskommission (UK)) and by the department conference D-PHYS.

<sup>2</sup> All new lecturers/supervisors also need a teaching assignment (Lehrauftrag), except elected ETHZ professors (including SNF/ERC professorships and guest professors). Teaching assignments may be mentored by ETHZ professors (including SNF/ERC professorships and adjunct professors).

<sup>3</sup> For retired lecturers, please consult <https://ethz.ch/services/en/teaching/administration-teaching-staff/retired-lecturers.html>

<sup>4</sup> D-PHYS can decide on additional persons authorized to teach service, core and compulsory courses. The director of studies decides on requests handed in to the course scheduling.

<sup>5</sup> In general not allowed, but possible upon approval by the director of studies.

<sup>6</sup> D-PHYS can decide on additional persons authorized to supervise semester projects and master's theses.

The department conference has currently appointed:

- Andreas Adelman (PSI), Ramasubramanian Chitra, Yves Acremann, Alexander Eichler, Marcus Christl, Joe Renes
- all elected (full, adjunct, assistant) D-MATH professors

<sup>7</sup> Doctoral studies are regulated by the ordinance on doctoral studies.

<sup>8</sup> Titular professors and PDs can supervise doctoral theses with the approval of D-PHYS (department head or director of studies).
