 clarity in complexity

Source: (2008) <https://www.publichealth.columbia.edu/research/population-health-methods/systems-science>

“A dose of complexity can spur rethinking cycles. It gives more humility about our knowledge and more doubts about our opinions, and it can make us curious enough to discover information we might be lacking.”

Grant, A. (2021). *Think Again: The Power of Knowing What You Don't Know*. WH Allen.

Cycling the city Cities

How Amsterdam became the bicycle capital of the world

In the 1960s, Dutch cities were increasingly in thrall to motorists, with the car seen as the transport of the future. It took the intolerable toll of child traffic deaths - and fierce activism - to turn Amsterdam into the cycling nirvana of today
