Carmenza has been looking at climate change, natural resources management and sustainable development at the interface between science-policy-practice and has experience in over twenty-five countries around the world. She has been involved as lead author in the Fifth Assessment Report of the Intergovernmental Panel on Climate Change (IPCC) and evaluated collaborative research programmes by the CGIAR system and the FAO. In addition, she has acted as an advisor of multiple international organizations including i.a. GCF, FAO, UNDP, UNEP, World Bank, CIFOR, UNFCCC Secretariat as well as governments in Latin America Asia and Africa. Since January 2023 she act as member of the independent Technical Advisory Panel (iTAP) of the Green Climate Fund, the biggest funding mechanism for climate action.

In her research, Carmenza has focused on the contribution of transdisciplinary research to sustainability pathways and transformation with especial attention on enabling and hindering conditions.

Carmenza is Colombian and Swiss citizen. She has a multidisciplinary background. She first studied architecture at the Javeriana University of Bogotá and did an interdisciplinary master degree in regional development. Further she pursued a master in economics in Braunschweig (Germany) and holds a doctoral degree in geography of the University of Stuttgart, Germany. In 2021 she finalized her certificate as a conflict mediator.
